

## ◆ Living Support

(生前サポート)

“I suddenly have my back strained and can’t move!” “I have a high fever and I cannot get up” – Sudden accidents could happen to anyone irrespective of age. If you have a family near you, they could help you. However, it may not necessarily be the case. Liss System, based on the “contract to mandate living support business (by notarized document)” offers a broad range of support while you live from every-day living support to caregiving, asset management, guaranty for hospitalization, etc., the one given by the family in the past. In the 21st century, we propose a new form of the contract-based family.

When you need help, our staff with expertise, skills and information will come to you to provide services as you have requested in the above contract. For those who are in urgent need of a guarantor for hospitalization or contracting a senior residence, Comprehensive Security Package is available for expedited procedures.
